^(*) A summary of American Recovery and Reinvestment Act (ARRA) disbursements is located in Appendix C.

^(**) The increase in Unemployment Taxes and Benefits is due to an increase in unemployment claims filed because of the economic downturn and a change in accounting treatment of Federal Withholding Taxes deducted from Unemployment Benefits. To provide greater transparency and accountability, Federal Withholding Taxes deducted from Unemployment Benefits will be added to Unemployment Benefits paid and Unemployment Taxes received rather than as a reduction of Unemployment Taxes received. To implement this change, Unemployment Taxes and Benefits were increased by \$19.9 million for the month of February 2009 and \$139.0 million for the 11 months ended in February 2009 to reflect Withholding Taxes deducted for comparative purposes.

^(*) The Department of Taxation and Finance has implemented a new Empire Processing System which allows for more timely distribution adjustments between NYS, NYC and Yonkers. The negative collections are due to adjustments processed in April 2009. Prior to the onset of this new system these adjustments were not processed until receipt of the final PIT returns which occurred later in the Fiscal Year.

(**) The increase in Unemployment Taxes and Benefits is due to an increase in unemployment claims filed because of the economic downturn and a change in accounting treatment of Federal Withholding Taxes deducted from Unemployment Benefits. To provide greater transparency and accountability, Federal Withholding Taxes deducted from Unemployment Benefits will be added to Unemployment Benefits paid and Unemployment Taxes received rather than as a reduction of Unemployment Taxes received. To implement this change, Unemployment Taxes and Benefits were increased by \$19.9 million for the month of February 2009 and \$139.0 million for the 11 months ended in February 2009 to reflect Withholding Taxes deducted for comparative purposes.

^(*) The Health Insurance Fund - Reserve for Rate Fluctuations Account, holds health insurance dividends which are used to offset the State's contribution for employee health insurance premiums. As of February 28, 2010, the Account had a balance of \$434.7m but only \$38.7m in appropriation authority was available to 'offset' the State's contribution for employee health insurance. This will leave a balance of \$396.0m in available cash for future 'offset' or refunds to participating employees and pensioners.

Chapter 1 of the Laws of 2002 authorized the conversion of Empire Health Choice, d/b/a Empire Blue Cross and Blue Shield from a not-for-profit corporation to a for-profit corporation. Chapter 1 requires, in part, that upon such conversion, assets representing 95 percent of the fair market value of the not-for-profit corporation be transferred to a fund designated as the "Public Asset Fund" and 5 percent transferred to a Charitable Foundation - as set forth in (s) 7317 of the Insurance Law. On December 28, 2005, Wellchoice, Inc. (previously known as Empire Blue Cross, Blue Shield) approved a takeover by Wellpoint, Inc. This conversion was also subject to the same Chapter 1 requirements of assigning assets representing 95 percent of the fair market value of the not-for-profit corporation be transferred to the "Public Asset Fund".

As of February 28, 2010, \$15,139,681.74 (representing the remaining balance of the State's 95 percent share of the fair market value of the not-for-profit corporation plus interest) is on deposit in the sole custody account titled Publi Asset Fund. In accordance with Section 4301(j)(4)(F) and (O) of the Insurance Law and at the direction of the Budget, these funds are available for transfer to HCRA Resource Fund (061).

*Pursuant to §98 of the State Finance Law, the State Comptroller is authorized to invest and keep invested all moneys, in any fund, held by the State. The Short Term investment Pool (STIP) represents an accounting mechanism that allows for the separate accounting of individual funds/subfunds (on deposit in State's general checking account) for the purpose of making short term investments. Chapter 56, Part PP, §16 of the Laws of 2009 amended §4(5) of the State Finance Law to authorize the Short Term Investment Pool to temporarily loan to the General Fund-State Operations Account (003) funds for a period of four months or the end of the fiscal year, which ever is shorter. However, it must be noted that certain funds/subfunds are invested as part of STIP, but are held by the State Comptroller in a fiduciary capacity. Fiduciary fund balances are restricted and may not be used for any State purposes since moneys in such funds are held by the State in a trustee (or fiduciary) capacity or as an agent for individuals, private organizations, or non-State governmental units (e.g. local governments, public authorities). Therefore, Fiduciary fund balances are not available to be temporarily loaned to the General Fund-State Operations Account. Fiduciary fund balances are presented in Schedules 3 and 4 of this report.

^{*} For Federal funds, Federal CMIA regulations require that we draw funds from the US Treasury as checks are 'cleared' instead of when 'issued'. Because of the manner in which we charge federal funds as payments clear our account, there is a timing delay for recording Medicaid payments based on clearances (rather than issuances). For reporting purposes \$4,960,000.00 in outstanding checks are included as Medicaid payments.

The Division of the Budget (DOB) is responsible for organizing and presenting the above schedule of 'Off Budget Spending'. Such reported disbursements are drawn from unaudited financial data provided by public authorities. Although the Office of the State Comptroller (OSC) has no reason to believe this information to be unreliable, it is important to note that these program disbursements are financed with public authority bond proceeds deposited directly into public authority accounts and all disbursements are made without any oversight by the OSC. Therefore, and pursuant to the provisions of Chapter 60, §16, of the Laws of 2006; this schedule is provided for information only.

Schedule of Month-End Temporary Loans Outstanding February 28, 2010

Temporary Loans are authorizations enacted by the Legislature to allow certain funds/accounts to make appropriated (cash) payments where the funds/accounts do not have sufficient (available) cash on deposit to make such payments. Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy **temporary** cash flow needs whenever scheduled disbursements exceed available revenues during the fiscal year. Generally temporary loans are repaid from the first cash receipts of the fund/account. Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and yearly legislation.

It is the prudent and proper practice of the State Comptroller's Office to reduce the (spendable) cash balance of appropriated fund balances at the time that checks and electronic payments are issued. The concept of monitoring 'spendable funds' is employed by the State Comptroller in the central accounting system to ensure that all disbursements (including checks and electronic payments that are future dated) do not exceed the cash available to finance ongoing payments made from the State Treasury. Therefore, the amount of Temporary Loans (from the short-term investment pool) reflects the spendable fund balance, reduced for certain local assistance payments made in the reporting month that had a check or electronic payment date in the following month. The temporary loan balances for the all funds reflect the 'actual' fund cash balances as of the close of business on the last day of the reporting month and are not adjusted for future-dated check and electronic payments. Furthermore, tax receipts remitted to the State on the last business day of the month are drawn into the State Treasury on the first business day of the next month. These final tax receipts are reported by the Department of Tax and Finance as tax collections for the reporting month but have no impact on the month-end temporary loan balance since such receipts were not available until the first business day of the next month. Post-closing adjustments are taken-on to the State's cash-basis financial statements to count future dated payments in the month of the check or electronic payment and tax revenues in the month that these were received.

Please refer to Schedule 1 for a detailed analysis of the 'reported' cash balances of the fund groups.

Temporary Loans are authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 56, Part PP, Section 1 and 1A, of the Laws of 2009-10, and represent authorizations made by the Legislature to allow certain funds/accounts to make appropriated payments regardless of the fund (cash) balance Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy temporary cash shortfalls whenever scheduled disbursements exceed available revenues during the fiscal year. Generally, temporary loans are repaid from the first cash receipts of the fund or account; however, in some cases actual revenues are not sufficient to repay all loans made to the fund or account and a transfer from the General Fund "Repayment of Receivables" appropriation is approved by the Budget Director.
