NOTES TO THE COMPTROLLER'S 2006 ANNUAL REPORT TO THE LEGISLATURE ON STATE FUNDS - CASH BASIS OF ACCOUNTING

NOTE 1 BASIS OF PRESENTATION:

As set forth in State Finance Law, this report is prepared on the cash basis of accounting and conforms substantially to the Financial Plan presentation prepared by the Division of the Budget for the fiscal year ended March 31, 2006. The State Financial Plan sets forth projections of receipts and disbursements in the governmental fund types based (initially) upon the recommendations contained in the Executive Budget. After the budget is enacted, the State Financial Plan is adjusted to reflect revenue measures, appropriation bills, and certain related bills enacted by the Legislature. The Financial Plan is updated quarterly, or more frequently as necessary, by the Division of the Budget.

NOTE 2 FUND TYPES:

The State records its transactions in the following fund types:

Governmental Funds:

General - the major operating fund of the State. It accounts for all receipts that are not required by law to be deposited in another fund. General Fund income finances disbursements from the Local Assistance Account, the State Operations Account, the Contingency Reserve Account, the Universal Pre-Kindergarten Account, the Community Projects Account, the Attica State Employee Victims' Account, the Refund Reserve Account, the Fringe Benefit Escrow Account and the Tobacco Revenue Guarantee Account. Receipts in excess of General Fund requirements in the Local Assistance Account and State Operations Account are transferred to the Tax Stabilization Reserve Account (See Schedule 27).

Special Revenue - to account for State receipts of specific revenue sources (other than debt service or major capital projects) such as Federal grants, that are legally restricted to disbursements for specified purposes. These restrictions may be imposed by the State or Federal government.

Debt Service - to account for the accumulation of resources for, and the payment of, principal and interest on general long-term debt and payments under lease/purchase and contractual-obligation financing agreements. Debt service related to general obligation debt and certain lease/purchase and contractual obligation payments paid from the General Debt Service Fund are funded by transfers from the General Fund. Debt service related activities for State University, Health and Mental Hygiene facilities; for highway construction, reconstruction, reconditioning and preservation and for certain local assistance payments made under contractual agreements with public authorities are disbursed from debt service funds. Such activities are funded by dedicated tax receipts,

dorm rentals and patient income.

Capital Projects - to account for resources used for the acquisition or construction of capital facilities. Capital assistance grants to local governments and advances for capital construction costs reimbursable by public authorities of the State, Federal or Local governments are also accounted for in these funds. Financial resources are generated primarily from bond issuances, dedicated taxes, reimbursement of advances, Federal grants and transfers from the General Fund.

Proprietary Funds:

Enterprise - to account for activities for which a fee is charged to external users for goods or services. It includes services where either the costs are intended to be recovered primarily through charges to users outside of the State entity, or where the potential exists for significant financing through user charges, even if the legislative intent is not to self-finance the service and instead subsidize it from general governmental resources.

Internal Service - to account for any activity that provides goods or services to other funds, other state agencies or governmental units on a cost-reimbursement basis. The objective is to recover costs and break-even.

Fiduciary Funds:

Pension Trust - to account for the cash basis results of operations for the administration portion of the State's Common Retirement Fund. It does not reflect investment activity, balances, or other assets available to this fund. In addition, pension contributions and payments to retirees are excluded since these payments are not required to be appropriated.

Private Purpose Trust - to account for all other trust arrangements where the principal and income benefit individuals, private organizations or other governments.

Agency - to account for funds held by the State in a purely custodial capacity. Cash is held temporarily until disbursements are made to individuals, private organizations or other governments.

NOTE 3 DISBURSEMENT DESCRIPTIONS:

Local Assistance Grants - includes payments to counties, cities, towns, villages, school districts and other local entities as well as certain financial assistance to, or on behalf of, individuals and nonprofit organizations. The major components of local assistance

grants are State aid for elementary, secondary and higher education; tuition assistance programs; social service assistance payments for medical assistance and income maintenance, foster care, and adoption services. Other local assistance programs include State revenue sharing, aid for health and environmental quality, housing, mental health and drug abuse, transportation, criminal justice and other governmental aid programs. Schedule 7 contains further information relating to local assistance disbursements by program.

Departmental Operations - includes the payment of salaries and compensation for State employees, miscellaneous contractual payments, supplies and materials, travel, rentals and repairs, utilities, postage and shipping, printing, telephone, and other miscellaneous operating costs.

General State Charges - includes costs mandated either by statute, collective bargaining agreements or court order. Charges in this category include contributions to pension systems, the employer’s share of social security contributions, employer contributions toward the cost of medical and dental insurance, workers’ compensation and unemployment insurance, and contributions to union employee benefit funds which provide prescription drug and vision care services. Also included are fixed costs for State payments in lieu of taxes, payment for local assessments on State owned land, judgments against the State pursuant to the Court of Claims Act, and defense by private counsel or payment on behalf of State officers and employees in civil judicial proceedings.

Debt Service - disbursements include the General Fund payment of interest on short-term borrowing (i.e., bond anticipation notes (BANS)) issued in the form of commercial paper. Debt service on long-term debt and payments on certain lease/purchase or contractual obligation contracts are also accounted for in Debt Service Funds (See Schedules 15 and 19). Under lease/purchase or contractual obligation financing arrangements, public authorities and certain municipalities have issued debt to finance the acquisition, construction and rehabilitation of State facilities or equipment and expect to receive rental or contractual payments from the State in an amount equal to the debt service on the debt issued by the authority or municipality.

Capital Projects - disbursements include payments made for the acquisition or construction of the State’s capital facilities. Included in this category are planning, land acquisition, design, construction, engineering services, and equipment costs attributable to highway, parkway and rail preservation projects; outdoor recreation and environmental conservation projects; payments to local governmental units and public authorities to help finance highway, parkway, bridge, mass transportation, aviation, economic development, port development, community college, community and State mental hygiene, outdoor recreation, correctional and State-assisted housing and

environmental quality projects; and advances for capital construction costs reimbursable by public authorities, the Federal or local governments, or from the proceeds of State bond and note sales.

NOTE 4 OTHER FINANCING SOURCES (USES):

NOTE 9 HEALTH CARE REFORM ACT RESOURCES FUND:

State Finance Law Section 92-dd, as added by Chapter 58, Part B, Section 89 of the Laws of 2005, established the HCRA Resources Fund (061) which brought the Health Care Reform Act programs administered by private contractors onto budget. The HCRA Resources Fund was authorized to receive cash balances from existing off budget HCRA pool accounts and future pool receipts, provide for the direct transfer of cigarette tax receipts and requires payments for Health Care programs be made pursuant to State appropriations. In addition, State Finance Law Section 92-dd authorized a number of existing HCRA funds programs appropriated in prior years in the Miscellaneous Special Revenue Fund (Fund 339) and the Indigent Care Fund (Fund 068) to be appropriated in the HCRA Resources Fund. The beginning cash balance of the HCRA Resources Fund was increased by \$42.8 million to account for the residual balance in these funds. Receipts and disbursements in the HCRA Resources Fund have also been adjusted for transactions processed during the April 1 to September 15, 2005 lapsing period for prior year obligations.

NOTE 10 PUBLIC ASSET ESCROW ACCOUNT

In *Consumers Union of U.S., Inc. v. State*, plaintiffs challenge the constitutionality of those portions of Chapter 1 of the Laws of 2002, which relate to the authorization of the conversion of Empire Health Choice, d/b/a Empire Blue Cross and Blue Shield from a not-for-profit corporation to a for-profit corporation. Chapter 1 requires, in part, that upon such conversion, assets representing 95 percent of the fair market value of the not-for-profit corporation be transferred to a fund designated as the "public asset fund" and 5 percent transferred to a Charitable Foundation - as set forth in (s) 7317 of the Insurance Law. The State and private defendants have separately moved to dismiss the complaint. On November 6, 2002, Supreme Court, New York County, granted a temporary restraining order, directing that the proceeds from the public offering of the for-profit corporation be deposited with the State Comptroller in an interest bearing account outside the State Treasury, pending the outcome of the above noted litigation. On June 20, 2005, The Court of Appeals, Case No. 83, ruled in favor of the State. Accordingly, on August 1, 2005, \$754 million that was held outside of the State Treasury was remitted to the State and deposited into the HCRA Resource Fund (061). On December 28, 2005, Wellchoice, Inc. shareholders (previously known as Empire Blue Cross, Blue Shield) approved a takeover by Wellpoint, Inc. This resulted in \$1.989 billion in proceeds to New York State which were deposited in the Public Asset Escrow Account on January 4, 2006. Subsequently, and in accordance with Section 4301(j)(4)(F) and (O) of the Insurance Law, the Director of the Budget directed that the \$1.989 billion be transferred to the HCRA Resource Fund (061). The first transfer of \$993.1 million took place on January 25, 2006 with the balance of \$995.8 million transferred on February 1, 2006.

(1) The Excelsior Linked Deposit Program authorizes the Comptroller to deposit state funds with participating lenders at a reduced rate of return when such lenders make lower cost loans, on the basis of such linked deposits, to qualifying businesses to improve productivity, competitiveness, access to new markets and exporting capabilities. The Banking Development District Program authorizes the Comptroller to deposit state funds at a reduced rate of return to encourage the establishment of commercial bank branches in areas where there is a demonstrated need for banking services. Actual earnings are reduced by \$8.115 million (to \$379.163 million) due to the effect of the Linked Deposit and Banking Development District investments.

(*) Temporary Loans are authorizations made by the Legislature to allow certain funds/accounts to make appropriated (cash) payments. Such loans are made from the State's Short-Term Investment Pool (STIP) and are intended to satisfy temporary cash flow needs whenever scheduled disbursements exceed available revenues during the fiscal year. Generally temporary loans are repaid from the first cash receipts of the fund/account. However, in some cases actual revenues are not sufficient to repay all loans made to the fund/account and a General Fund repayment appropriation is necessary. Loans authorized pursuant to Subdivision 5 of Section 4 of the State Finance Law and Chapter 61, Part Y, Section 1 of the Laws of 2005 are listed by fund/account and are grouped into eight broad categories based on primary source of loan repayment.
