

## Local Official Training Events Online – Mediasite Requirements:

The following are system requirements for the best presentation viewing experience with Mediasite Viewer:

- Microsoft Windows 2000, Windows XP, Windows 2003, or Windows Vista
- Minimum display resolution of 800 x 600
- Windows-compatible sound card
- Microsoft Internet Explorer 6.0 SP1
- Windows Media Player 9.0
- Broadband Internet connection

### NOTES:

- Configure popup blockers to allow site pop-ups. Otherwise, presentations will not appear.
- Because Windows Media Player plug-in dlls are not installed with Windows Vista, by default Windows Media Player can only be embedded in Internet Explorer.
- To view Mediasite presentations using Firefox under Windows Vista use the ActiveX plug-in you are prompted to download when you first attempt to view a presentation  
- OR -
- Copy the Windows XP plug-in dlls to your machine following [these instructions](#) (instructions open in a new window).
