Potentially Unregistered Motor Vehicle Facilities in NYS

MARYLAND

This analysis excludes eight counties in New York State. These counties are the five counties that make up New York City (Bronx, Kings, New York, Queens, and Richmond) due to differences in the New York City property classification system. The other three counties (Putnam, Rockland, and Suffolk) have not made their parcel data available for use by state agencies and as a result this analysis was impossible for those counties.
